

umtplus

For the easiest and most timely way to perform a variety of **Work Measurement Studies**, **Laubress Inc.** introduces the **UmtPlus®** software for handheld computers.

This innovative product replaces the lengthy process of using stopwatches and notepads, eliminating the tedious task of data entry, making time studies easier and more efficient.

UmtPlus® is an essential tool to identify waste, optimize your resources, and increase your productivity.

UmtPlus® Saves you Time and Money:

Collecting data on a handheld computer with **UmtPlus®** is up to **85% faster** than using a stopwatch. Furthermore, by eliminating the step of manual data entry, you minimize the risk of potential error.

- ▶ Traditionally for every hour on the floor, it took three hours to input the data - Now with **UmtPlus®**, data is transferred instantly with the click of a button. Once your data is transferred, a variety of reports and graphs are available for analyses - immediately.

A Versatile Tool for Custom Work Measurement Studies:

Whether it is self sampling or more traditional work measurement, you can customize the study to suit your needs.

- ▶ The same tool that any employee can learn to use in a matter of minutes, also provides expanded analytical capabilities for engineers.

With the UmtPlus® package you can Find Solutions Faster:

Optimize your resources by understanding where and how time is being spent. Doing work measurement studies with **UmtPlus®**, you can easily identify opportunities for improvement.

- ▶ By quickly understanding where time is wasted you will save money.

"It's the stopwatch of the 21st century!"

Because time is important

UmtPlus® License

UmtPlus® software comes as a comprehensive package with three main modules:

- ☒ **UMT Manager:** Software for your PC to create, edit and manage any number of configurations. *Purchasing one UmtPlus® license will grant you unlimited UmtManager software licenses for PCs in one location.*
- ☒ **UMT Plus®:** Software to easily collect data on a Palm OS or Windows Mobile PDA. *Purchasing one UmtPlus® license per PDA is required. PDA not included¹.*
- ☒ **Stat UMT:** Software for your PC to perform data analyses, reports and graphs. *Purchasing one UmtPlus® license will grant you unlimited StatUmt software licenses for PCs in one location.*

Bonus!

- ☒ **UMT Xtender:** This FREE add on allows you to manipulate your PDA from your PC (PDA is still required – works on Palm OS PDAs only). *Each UmtPlus® License comes with this bonus software.*

Your UmtPlus® License Purchase Also Includes:

- ✓ A lifetime of Technical Support
- ✓ A year of free updates and upgrades
- ✓ Full PDF user manuals
- ✓ Unlimited access to Online Training tools to help you get started
- ✓ Absolutely no annual fees are required
- ✓ Software can easily be downloaded through our website

Upgrades:

Software upgrades are included for 12 months after the purchasing date. Additional upgrade coverage is available as follows.

- If you purchase 12 additional months of software upgrades within the first 12 months of purchase, you will be charged 15% of the software purchase price.
- If you purchase 12 additional months of software upgrades after the initial 12 months period has expired, you will be charged 40% of the software purchase price.

Training:

Comprehensive online training demos and PDF manuals are included with your purchase. We can also provide customized training services for your team. Training sessions can be in person or online. Please contact your account executive for more details.

¹: PDAs (Hardware) can also be purchased through Laubrass and will be sold at market price.
